LibidoStim-F™ is a complex formulary blend of nutraceutical and herbal ingredients for the increase of female sexual desire and pleasure. The unique and targeted combination of nutrients included in this product provide safe enhancement for natural testosterone production, optimization of testosterone and estrogen metabolism, increased blood flow, and adrenal support. LibidoStim-F™ is designed to help provide an overall increase in desire and sexual satisfaction specifically for women.

Benefits

- Helps safely promote female sexual desire
- Provides a natural and safe enhancement of testosterone
- Favorably influences aromatase activity for optimal testosterone and estrogen metabolism
- Natural optimization of blood flow for enhanced sexual function

LibidoStim-F™ may be used in combination with the following for optimal results:

- **Arginine:** 2 capsules twice daily
- **Grape Seed Supreme™:** 2-4 capsules daily

Suggested Laboratory Tests: Serum total and free testosterone, as well as DHEA, can be checked for close clinical management.
